New collection overview

Innovation meets timeless design in our new collection of contemporary lighting concepts for hospitality, residential, and commercial spaces. The collection showcases enduring materials such as beautifully translucent porcelain and highlights functional and flexible applications, including our portable and plug-in lighting ranges. Our new Made to Order offering provides more choice and flexibility than ever before. Discover the latest designs across our comprehensive Interior, Bathroom, and Exterior ranges.

Lighting designed to stand the test of time.

Our heritage

Since 1997, our founders John Fearon and James Bassant have shared a passion for British lighting design and a vision to create products with distinctive quality. The insight gained over this time influences our comprehensive range of lighting for hospitality, residential, and commercial applications. Underpinned by our meticulous attention to detail, each design balances high-performance with our commitment to sustainable, timeless design.

Our designers

James Bassant, Design Director

Co-founder James leads a busy team of in-house designers as Design Director. A natural eye for timeless aesthetics allows James to draw upon influences from life and expertly translate these into considered, pared-back luminaires that stand the test of time.

Riley Sanders, Head of Design

New Zealand born Riley combines a love of materials with his fascination of manufacturing techniques to explore innovative, future-proofed designs. Passionate about the details, he works closely with the engineering team to create synergy between a products aesthetic and function, ensuring neither is compromised.

Porcelain

Astro's porcelain lighting collection showcases the beauty of this versatile material. Offering a warm glow that creates an inviting atmosphere, porcelain is an enduring material that is designed to stand the test of time.

Choose from a range of porcelain designs that are built for interior spaces, pared-down wall lights that deliver functional illumination, or visually appealing table lamps that create atmospheric mood lighting in dark corners. A durable yet versatile material, porcelain offers a timeless elegance in any scheme.

Plug-ins

Astro's plug-in lighting offers sleek and functional solutions for reading and wall lighting. With versatility at the core of their design, these compact indoor lights are the perfect choice for the bedside, living spaces, and offices. Just plug them into a mains outlet and enjoy convenient illumination wherever it is needed.

Portables

Compact and versatile, Astro's collection of portable lights are the ideal choice for bringing illumination and ambience wherever it is needed. Featuring energy-efficient LED technology, that ensures long-lasting illumination, many models offer adjustable brightness settings to suit your needs. The collection features considered designs that are built to complement any interior or exterior seamlessly.

Made to Order

Made to Order offers a number of alternative finishes and specification options to some of our lighting ranges, providing extended flexibility and choice when specifying our lighting. Subject to minimum order quantities and increased lead times.

NEW LIGHTING COLLECTION

Bathroom

Nara

Thanks to its timeless design and innovative features, Nara is the ideal pendant light for mounting beside mirrors in hospitality bathrooms or centrally in larger residential bathrooms. It features high-quality, durable materials and a self-levelling design, making it ideal for installation on uneven ceilings.
